

Write a program using loop that will generate every third integer beginning with $i=2$ and continuing for all integers that are less than 100. calculate the sum of those integers that are divisible by 5.

FORM

CODING

```
Dim sum As Integer
```

```
Private Sub Command1_Click()
```

```
sum = 0
```

```
For I = 2 To 100 Step 3
```

```
List1.AddItem (I)
```

```
If I Mod 5 = 0 Then
```

```
sum = sum + I
Text1.Text = sum
End If
Next

End Sub
```

AFTER EXECUTION
